

Emergency Phone

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

Section 1 - Identification

Product Identifier	NATURAL WONDER Bio-enzymatic Bowl & Bathroom Deodorizing Cleane	
Other means of identification	1806	
Recommended use	Enzyme cleaner.	
Recommended restrictions	For commercial and industrial use only.	
Manufacturer / Importer / Supplie	er / Distributor Information	
Company Name	National Chemical Laboratories of PA, Inc.	
Address	401 N. 10th Street - Philadelphia, PA 19123	
Telephone	1 (215) 922-1200	
Supplier Email	info@nclonline.com	
Contact	CHEM-TEL	

1 (800) 255-3924 Section 2 - Hazard(s) Identification

	Classification	Cotogony
		Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash thoroughly after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local author	ity requirements.
Hazard(s) not otherwise classified (HNOC)	None known.	

Section 3 - Composition/Information on ingredients

Mixture

Components not listed are either non-hazardous or are below reportable limits according to OSHA 29 CFR 1910.1200.

Section 4 - First-aid Measures

Rinse with water. Get medical attention if irritation persists.			
nselves.			
1			

SAFETY DATA SHEET

Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.					
General fire hazards	No unusual fire or explosion hazards noted.					
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.					
-	Section 6 - Accidental release measures					
Personal precautions, protective	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Do not touch					
equipment and emergency procedures.	damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see sect of the SDS.					
Methods and materials for containment and cleaning up	This product is miscible in water. SMALL SPILLS Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.					
	LARGE SPILLS: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water . Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.					
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.					
	Section 7 - Handling and storage					
Precautions for safe handling	Avoid prolonged exposure.					
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).					
	Section 8 - Exposure control/personal protection					
Occupational exposure limits	No exposure limits noted for ingredient(s).					
Biological limit values	No biological exposure limits noted for the ingredient(s).					
Appropriate engineering	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to					
controls	coold general ventuation (typically 10 an changes per hour) should be used. Ventuation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level					
	levels to an acceptable level					
Individual protection measures, s	levels to an acceptable level uch as personal protective equipment					
Individual protection measures, s Eye/face protection						
Eye/face protection Skin protection	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields.					
Eye/face protection Skin protection Hand protection	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use.					
Eye/face protection Skin protection Hand protection Other	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing.					
Eye/face protection Skin protection Hand protection Other Respiratory protection	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.					
Eye/face protection Skin protection Hand protection Other Respiratory protection Thermal hazards	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.					
Eye/face protection Skin protection Hand protection Other Respiratory protection	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.

CUF - --

	SAFETY DATA SHEET
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	100 % Soluble.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.9 °C)
	Section 10 - Stability and reactivity
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.
	Section 11 - Toxicological information
Information on likely routes of exp	posure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.
Information on toxicological effect	ts.
Acute toxicity	Not expected to be acutely toxic.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity -	Not classified.
single exposure Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
Chronic effects	Prolonged inhalation may be harmful.
Further information	This product has no known adverse effect on human health.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in coil	No data available.
Mobility in soil	
Mobility in general	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
	Section 13 - Disposal considerations

Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.

SAFETY DATA SHEET

Waste from residues / unused	Dispose in accordance with all applicable regulations.
products	
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

This substance/mixture is not intended to be transported in bulk.

Not regulated as dangerous goods.

Not regulated as dangerous goods.

Not regulated as dangerous goods.

Section 14 - Transport information

DOT ΙΑΤΑ IMDG Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code
