

FPS-510

Concentrated Liquid Flatware Presoak

DESCRIPTION

Specially formulated for presoaking and detarnishing of flatware, this product performs equally well in hard and soft water. Contains ingredients which aid in the reduction of water spotting on flatware, as well as loosening cooked on soils.

PRODUCT FEATURES / BENEFITS

- *Concentrated.....Economical
- *Reduces Water Spotting.....Improved Results
- *Reduces Dishmachine "Rejects".....Labor Savings
- *Detarnishes.....Labor Savings
- *Reduces Dishmachine Detergent Use.....Economical

SPECIFICATIONS

Color.....	Clear, Thin, Pink Liquid
Odor.....	Bland
pH.....	13.6
Viscosity (cps).....	Water thin
Specific Gravity (gr/cc).....	1.11 ± 0.01
Foaming.....	Good
Detergency.....	Complete in water
Hard water Tolerance.....	Excellent

DIRECTIONS FOR USE

Stainless Flatware – Add 1/2 to 1 ounce per gallon of warm water in a buss pan or similar vessel. Soak flatware from 1 to 5 minutes depending on soil, then rack and pass through dishwasher. They will come out clean shiny and spot-free. **Silver Service Flatware** – Add 1/2 to 14 ounces per gallon of warm water in a vessel or buss pan lined with aluminum foil. Place silverware in buss pass and allow to soak for several minutes, then rack and pass through dishwasher. Silverware will be cleaner and shine like never before. **Fast Detarnishing** – Add 1 to 2 ounces per gallon of hot water in a vessel lined with aluminum foil. Place silverware in a basket and soak in this solution for 1 to 3 minutes. Remove silverware rinse with hot water and dry to a shine. (Note do not allow silver to soak too long as this will cause redeposition of aluminates on your utensils.)
