

UNISON™

Puri™ Metered Air Freshener & Automated Aerosol Dispenser

DESCRIPTION

Provides continuous deodorization, using our signature fragrances. Each 7 oz. aerosol can provide over 3,000 sprays. Both air fresheners utilizes proprietary MCA™ malodor counteractants to change the molecular structure of odor causing substances. The automatic aerosol dispenser can be programmed to dispense continuously or only when restroom is in service. LED indicator identifies that the units is in proper working order.

PRODUCT FEATURES / BENEFITS

- Over 3,000 sprays per 7 oz. can / Long term odor control Proprietary MCA™ malodor
- Provides immediate broad range control for over 24 hours counteractants / Light sensitive programming
- Aerosol dispenser can be controlled for use only when restroom is in use / Signature fragrances / Beautiful modern fresh scents fill the immediate area
- Adjustable Timing Circuit / Release an aerosol burst every 7.5 or 15 minutes

DIRECTIONS FOR USE

Use anywhere a clean, fresh smelling restroom is important: locker room, gyms, office buildings, schools, restaurants, shopping malls, etc. Locate automatic metered dispenser about 7 feet from floor at a point where normal room ventilations will move the aerosol mist around the room. Avoid placing the dispenser around any open doorway. Remove cap from Unison™ metered

air freshener can and place container in dispenser, making sure that the plastic retaining bracket fit between the collar of the container and the can body so that the can is held snugly by this bracket. Align the container nozzle towards the front of the dispenser. If used on 15 minutes intervals, this container will last a full month.
