NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identification
Product Identifier	ALL-IN-ONE™ RTU Encapsulating Carpet Cleaner & Spot Remover
Other means of identification	0694
Recommended use	Detergent RTU.
Recommended restrictions	For commercial and industrial use only.
Manufacturer / Importer / Supplie	er / Distributor Information
Company Name	National Chemical Laboratories of PA, Inc.
Address	401 N. 10th Street - Philadelphia, PA 19123
Telephone	1 (215) 922-1200
Supplier Email	info@nclonline.com

CHEM-TEL 1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	None.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	No specific first aid measures noted.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of contents/container in accordance with local/region	al/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.	

Section 3 - Composition/Information on ingredients						
Mixture						
Hazardous Components	Ingredient Name	CAS #	%			
	Propyleneglycol propylether	1569-01-3	1 - 5			
	Section 4 - First-aid Meas	sures				
Inhalation	Move to fresh air. Get medical attention if irritation persists.					
Skin contact	Wash skin with soap and water. Get medical attention if irritation	Wash skin with soap and water. Get medical attention if irritation persists.				
Eye contact	Flush eyes thoroughly with water for at least 15 minutes. Get medical attention if irritation persists.					
Ingestion	Rinse mouth thoroughly with water. Seek medical advice.					
Most Important symptoms /effects, acute and delayed	Mild eye irritation.					
Indication of immediate medical attention and special treatment	Treat symptomatically.					
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.					
Section 5 - Fire-fighting measures						
Suitable extinguishing media	Carbon dioxide, alcohol-resistant foam, dry chemical, water sp	pray, or water fog.				
Unsuitable extinguishing	Not available.					

SAFETY DATA SHEET

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.						
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk. Use water spray to keep fire-exposed containers cool.						
General fire hazards	This product is not flammable or combustible.						
	Section 6 - Accidental release measures						
Personal processions, protective	Icolate area. Keen unnecessary personnel away like personal protection as recommended in Section 8 of the SDS						
Personal precautions, protective Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SD equipment and emergency procedures.							
Methods and materials for containment and cleaning up	MALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, hen place in a container for chemical waste. After removal flush contaminated area thoroughly with water. ARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After emoval flush contaminated area thoroughly with water.						
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.						
	Section 7 - Handling and storage						
Precautions for safe handling	Avoid contact with eyes. Wash thoroughly after handling. Use Personal Protective Equipment recommended in section 8 of the SDS.						
Conditions for safe storage, including any incompatibilities	Store away from incompatible materials. Keep container closed.						
	Section 8 - Exposure control/personal protection						
Occupational exposure limits	No exposure limits noted for ingredient(s).						
Biological limit values	No biological exposure limits noted for the ingredient(s).						
Exposure guidelines	Use personal protective equipment as required. Keep working clothes separately.						
Appropriate engineering	Provide adequate ventilation and minimize the risk of inhalation of vapors and mists. Provide easy access to water						
controls	supply and eye wash facilities.						
Individual protection measures, su Eye/face protection	uch as personal protective equipment If use of product risks exposure to contact, wear safety glasses with side shields.						
Skin protection							
Hand protection	Impervious gloves are recommended for prolonged use.						
Other	If use of product risk exposure to contact, wear suitable protective clothing.						
	In case of inadequate ventilation, use respiratory protection.						
Respiratory protection	in case of madequate ventilation, use respiratory protection.						
Respiratory protection Thermal hazards	Wear appropriate thermal protective clothing, when necessary.						
Thermal hazards General hygiene	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,						
Thermal hazards	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.						
Thermal hazards General hygiene considerations	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Thermal hazards General hygiene considerations Appearance	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear.						
Thermal hazards General hygiene considerations	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid.						
Thermal hazards General hygiene considerations Appearance Physical state	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Colorless.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Colorless. Universal Fresh.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Colorless. Universal Fresh. Not available. 8.5						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Colorless. Universal Fresh. Not available.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Colorless. Universal Fresh. Not available. 8.5 Not available.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Colorless. Universal Fresh. Not available. 8.5 Not available. 212 °F (100 °C)						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Logorless. Universal Fresh. Not available. 212 °F (100 °C) Not available.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate Flammability (solid, gas)	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Clear. Liquid. Liquid. Colorless. Universal Fresh. Not available. 8.5 Not available. 212 °F (100 °C) Not available.						
Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range Flash point Evaporation rate Flammability (solid, gas)	Wear appropriate thermal protective clothing, when necessary. SAFETY DATA SHEET

Relative density temperature Solubilities (water) Partition Coefficient n- octanol/water	75 °F (23.9 °C) Completely Soluble. Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cP
Viscosity Temperature	75 °F (23.9 °C)

	Section 10 - Stability and reactivity
Reactivity	Not available.
Chemical stability	Stable at normal conditions.
Possiblity of hazardous reactions	Hazardous polymerization does not occur.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition	Carbon monoxide. Carbon dioxide.
Products	

Section 11 - Toxicological information

	Section 11 - Toxicological information
Information on likely routes of ex	xposure
Ingestion	No adverse effects due to ingestion are expected.
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.
Eye contact	May cause eye irritation.
Symptoms related to the physical, chemical and toxicological characteristics	May cause eye irritation. Prolonged or repeated skin contact may cause drying, cracking, or irritation.
Information on toxicological effe	cts.
Acute toxicity	Not expected to be hazardous.
Skin corrosion/irritation	Prolonged or repeated contact may dry skin and cause irritation.
Serious eye damage/ eye irritation	May cause eye irritation.
Respiratory sensitization	Not classified.
Skin sensitization	Not available.
Germ cell mutagenicity	Not classified.
Carcinogenicity	Not classified.
Reproductive toxicity	Not classified.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	The product is expected to be biodegradable.
Bioaccumulative potential	Not known.
Partition coefficient n-octand	
Components	Results
Propyleneglycol propylethe	er (CAS 1569-01-3) 0.621
Mobility in soil	Not available.
Mobility in general	The product is water soluble and may spread in water systems.
Other adverse effects	None known.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.

SAFETY DATA SHEET

Waste from residues / unused products	Dispose in accordance with all applicable regulations.
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.

This substance/mixture is not intended to be transported in bulk.

Not regulated as dangerous goods.

Not regulated as dangerous goods.

Not regulated as dangerous goods.

Section 14 - Transport information

DOT IATA IMDG Transportation in bulk according to Annex II of MARPOL 73/78 and IBC Code

Section 15 - Regulatory Information

		Section 15	- Regulatory Information	
US federal regulations	This product is 1910.1200.	not known to be a	"Hazardous Chemical" as defined by the OSHA Hazard Cor	mmunication Standard, 29 CFR
TSCA Section 12(b) Ex	port Notification (40 CFI	R707, Subpt. D)	Not regulated.	
US. OSHA Specifically	Regulated Substances (2	29 CFR 1910.1001-	1050) Not listed.	
CERCLA Hazardous Su	bstance List (40 CFR 302	2.4	Not listed.
