

Emergency Phone

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identification		
Product Identifier	FOAM-I-SEPT Foaming Antibacterial Hand Cleaner with Triclosan		
Other means of identification	4311		
Recommended use	Hand Soap.		
Recommended restrictions	For commercial and industrial use only.		
Manufacturer / Importer / Supplier / Distributor Information			
Company Name	National Chemical Laboratories of PA, Inc.		
Address	401 N. 10th Street - Philadelphia, PA 19123		
Telephone	1 (215) 922-1200		
Supplier Email	info@nclonline.com		
Contact	CHEM-TEL		

1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category
Physical Hazards	Not Classified	
Health Hazards	Not Classified	
OSHA defined hazards	Not Classified.	
Label Elements		
Hazard Symbol	None.	
Signal Word	None	
Hazard Statement	The mixture does not meet the criteria for classification.	
Precautionary statement		
Prevention	Observe good industrial hygiene practices.	
Response	Wash hands after handling.	
Storage	Store away from incompatible materials.	
Disposal	Dispose of waste and residues in accordance with local a	authority requirements.
Hazard(s) not otherwise classified (HNOC)	None known.	

Section 3 - Composition/Information on ingredients

Mixture			
Hazardous Components	Ingredient Name	CAS #	%
	Sodium Laureth Sulfate	68585-34-2	5 - 10
Composition Comments	The exact percentage (concentration) of composition has been	ו withheld as a trade secret.	

Section 4 - First-aid Measures				
Inhalation	Move to fresh air. Get medical attention if irritation persists.			
Skin contact	Wash off with water. Get medical attention if irritation persists.			
Eye contact	Rinse with water. Get medical attention if irritation persists.			
Ingestion	Rinse mouth. Get medical attention if irritation persists.			
Most Important symptoms /effects, acute and delayed	Direct contact with eyes may cause temporary irritation.			
Indication of immediate medical attention and special treatment	Treat symptomatically.			
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.			
	Section 5 - Fire-fighting measures			
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).			
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.			
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.			
	FOAM-I-SEPT Foaming Antibacterial Hand Cleaner with Triclosan 4311 Page 1 of 5			

SAFETY DATA SHEET

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.		
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.		
General fire hazards	No unusual fire or explosion hazards noted.		
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.		
	Section 6 - Accidental release measures		
• • • • • •			
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.		
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.		
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.		
	Section 7 - Handling and storage		
Precautions for safe handling	Observe good industrial hygiene practices.		
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).		
	Section 8 - Exposure control/personal protection		
Occupational exposure limits	No exposure limits noted for ingredient(s).		
Biological limit values	No biological exposure limits noted for the ingredient(s).		
Exposure guidelines	This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.		
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.Provide eyewash station.		
Individual protection measures, si	uch as personal protective equipment		
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.		
Eye/face protection Skin protection	If use of product risks exposure to contact, wear safety glasses with side shields.		
Skin protection Hand protection	If use of product risks exposure to contact, wear safety glasses with side shields. Impervious gloves are recommended for prolonged use.		
Skin protection Hand protection Other	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing.		
Skin protection Hand protection Other Respiratory protection	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.		
Skin protection Hand protection Other Respiratory protection Thermal hazards	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.		
Skin protection Hand protection Other Respiratory protection	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Liquid.		
Skin protection Hand protection Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	Impervious gloves are recommended for prolonged use. If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Liquid. Clear liquid.

SAFETY DATA SHEET

Relative density temperature	75 °F (23.9 °C)		
Solubilities (water)	Completely soluble.		
Partition Coefficient n- octanol/water	Not available.		
Auto-ignition temperature	Not Available.		
Decomposition temperature	Not Available.		
Viscosity	<20 cP		
Viscosity Temperature	75 °F (23.9 °C)		
	Section 10. Stability and reactivity		
a	Section 10 - Stability and reactivity		
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		
Chemical stability Possiblity of hazardous reactions	Material is stable under normal conditions. No dangerous reaction known under conditions of normal use.		
Conditions to Avoid	Contact with incompatible materials.		
Incompatible materials	Strong oxidizing agents.		
Hazardous Decomposition	No hazardous decomposition products are known.		
Products	······································		
	Section 11 - Toxicological information		
Information on likely routes of exp	posure		
Ingestion	Expected to be a low ingestion hazard.		
Inhalation	No adverse effects due to inhalation are expected.		
Skin contact	No adverse effects due to skin contact are expected.		
Eye contact	Direct contact with eyes may cause temporary irritation.		
Symptoms related to the physical, chemical and	Direct contact with eyes may cause temporary irritation.		
toxicological characteristics			
Information on toxicological effec	ts.		
Acute toxicity	Not available.		
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.		
Serious eye damage/ eye	Direct contact with eyes may cause temporary irritation.		
irritation			
Respiratory sensitization	This product is not expected to cause respiratory sensitization.		
Skin sensitization	This product is not expected to cause skin sensitization.		
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.		
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.		
Specific target organ toxicity - single exposure	Not classified.		
Specific target organ toxicity -	Not classified.		
repeated exposure			
Aspiration hazard	Not available.		
	Section 12 - Ecological Information		
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.		
Persistence and degradability	No data is available on the degradability of this product.		
Bioaccumulative potential	No data available.		
Mobility in soil	No data available.		
Mobility in general	No data available.		
Other adverse effects	s No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine		
	disruption, global warming potential) are expected from this component.		
	Section 13 - Disposal considerations		
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.		
Local disposal regulations	Dispose of in accordance with local regulations.		
Hazardous waste code	Waste codes should be assigned by the user based on the application for which the product was used.		
Waste from residues / unused	Dispose in accordance with all applicable regulations.
