World Class Wood Care Solutions

Performance driven flooring solutions!

Using advanced wood coatings technology, NCL provides an easy-to-follow program for maple gymnasium floors and other commercial wood applications, maintaining wood with a deep, long lasting gloss and superior resistance to scuffing, soils and black heel marking.

We offer simplified wood care programs using water-based finishes that deliver exceptional results and require a minimum of additional training.

These water-based products comply with federal VOC standards, as well as state and local VOC regulations. They promote worker safety and a healthier indoor environment while providing outstanding beauty and durability.

Years of Beauty, Safety and Performance

Wood floors in a modern school represent much more than just a gymnasium. They are a focal point for school activities and a source of great community pride. The **NCL Wood Care Solutions™** program will provide your wood floors with many years of beauty, safety and performance.

NCL Wood Care Solutions™ provides a simple, complete line of products that can cost effectively maintain wood floor surfaces and achieve maximum performance. The finish is an easy to use, environmentally preferred, water-based, single component system.

NCL's breakthrough wood finish technology improves performance while simplifying product application and maintenance. Now it is easy to maintain attractive, high performance wood floors with confidence in your facility using **NCL Wood Care Solutions™**.

One Component vs Two Component

With new technology, **Endura™ Ultra Premium Water-based Wood Finish** is a single component system that out-performs "market standard" two component finishes.

Two component water-based finishes have been the 'market standard' because they have out performed single component products even with the associated negative health hazards and the limited "pot life" of the catalyzed product.

World Class Cleaning Solutions®

Wood Care Products

Coating

ENDURA™ Ultra Premium Water-Based Urethane Wood Finish
Our highly durable one-component Wood Finish for all properly sealed sports floors and other maple commercial floor surfaces. Superior resistance to wear, scuffing, and black heel marks. Reduces down time.

4X1 GALLON: Item # 1600-29
5 GALLON PAIL: Item # 1600-21

FAST BREAK™ Routine Wood Cleaner

A daily or routine cleaner to help remove scuffs, marks, grease and oil from finished wood floors. Improves the slip resistance of wood floors by keeping them clean.

4X1 GALLON: Item # 1603-29

Cleaners

Maintainers

MID-COURT™ Water-Based Dust Mop Treatment
Water-based dust mop treatment improves the dust trapping performance on wood flooring surfaces. The economical wax base decreases floor wear, scratches, and scuffs. The non-flammable formula is safer to use and allows for easy clean up and laundering.

4X1 GALLON: Item # 1606-29

PIVOT™ Intensive Wood Prep Cleaner
Deep cleans the surface to help remove scratches, scuffs and marks. Use PIVOT to clean and prepare existing finish for recoating.

4X1 GALLON: Item # 1604-29

NU-LOOK™ Wood Floor Cleaner / Conditioner
Neutral pH formula safely and gently cleans and conditions wood surfaces to restore their beauty and natural luster. Concentrated formula is pleasantly scented to deodorize as it cleans.

4X1 GALLON: Item # 0939-29

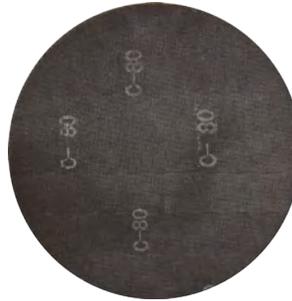

Accessories

FINISH PREP PADS

Quickly prepare the surface of finished wood floors to properly adhere with new coats of finish. Removes scuffs and marks quickly.

10 x 17" Pads: Item # 1625
10 x 20" Pads: Item # 1626

SAND DISC SCREENS

Screens made of water-proof resins for use on finished wood flooring surfaces to sand down/remove old finish so that new finish can be applied. Will not load up.

17" DISCS
10 x 80 grit: Item # 1617
10 x 120 grit Item # 1619
20" DISCS
10 x 80 grit: Item # 1621
10 x 120 grit Item # 1623

T-BAR APPLICATOR

Weighted to control mil thickness of coating to allow quick, professional, consistent, smooth, streak and bubble free application up to 10,000 square feet per hour.

Lightweight T-BAR Applicators
18" Applicator: Item # 1611
24" Applicator: Item # 1610
Heavyweight T-BAR Applicators
18" Applicator: Item # 1609
24" Applicator: Item # 1608

FLOOR COATER REFILLS

Nylofoam® replacement refill for use with T-BAR Applicators to apply water-based wood floor finishes precisely, smoothly, and lint-free.

6 x 18" Refills: Item # 1613
6 x 24" Refills: Item # 1612
