

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Ident	ification					
Product Identifier	MICRO-CHEM PLUS Detergent Dis	nfectant Cleaner					
Other means of identificatio	n 0255	0255					
Recommended use	Disinfectant.	Disinfectant.					
Recommended restrictions	EPA Registered Product. For com	nercial and industrial use only.					
Manufacturer / Importer / S	upplier / Distributor Information						
Company Name	National Chemical Laboratories of PA, Inc.	National Chemical Laboratories of PA, Inc.					
Address	401 N. 10th Street - Philadelphia, PA 19123						
Telephone	1 (215) 922-1200						
Supplier Email	info@nclonline.com						
Contact	CHEM-TEL						
Emergency Phone	1 (800) 255-3924						
	Section 2 - Hazard(s)	Identification					
SDS Hazard	s and Warnings are based on the undiluted product. Refe	to diluted SDS for Ready-To-Use Hazards ar	nd Warnings.				
	Classification	Category					
Physical Hazards	Not Classified						
Health Hazards	Serious eye damage/eye irritation	1					
	Skin corrosion/irritation	2					
Environmental Hazards		Category					
	Hazardous to the aquatic environment, acute hazar	d. 1					
	Hazardous to the aquatic environment, long-term h	azard. 2					
OSHA defined hazards	Not Classified.						
Label Elements							
Hazard Symbol							
	下 家						
	\sim						
Signal Word	Danger						
Hazard Statement	Causes skin irritation. Causes serious eye damage. Very to	xic to aquatic life. Toxic to aquatic life with lo	ng lasting effects.				
recautionary statement							
Prevention	Wash thoroughly after handling. Avoid release to the env	ronment. Wear protective gloves. Wear eye/	face protection.				
Response	Collect spillage. If on skin: Wash with plenty of water. If in	eyes: Rinse cautiously with water for several	minutes. Remove				
	contact lenses, if present and easy to do. Continue rinsing this label). If skin irritation occurs: Get medical advice/att						
Storage	Store away from incompatible materials.						
Disposal	Dispose of contents/container in accordance with local/re	gional/national/international regulations					
lazard(s) not otherwise	None known.						
lassified (HNOC)							
	Section 3 - Composition/Infor	mation on ingredients					
Mixture							
Hazardous Components	Ingredient Name	CAS #	%				
-	Sodium Carbonate	497-19-8	1 - 5				
	4-Nonylphenol, branched, ethoxylated	127087-87-0	1 - 5				
	Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ar		1 - 3				
	chlorido (Alternato CAS 69056 70 6)		-				

Composition Comments Components not listed are either non-hazardous or are below reportable limits.

chloride (Alternate CAS 68956-79-6)

_Alkyl Dimethyl Benzyl Ammonium Chloride (C12-C18)

Section 4 - First-aid Measures

Inhalation	Move to fresh air. Call a physician if symptoms develop or persist.
Skin contact	Wash with plenty of soap and water. If skin irritation occurs: Get medical advice/attention. Take off contaminated clothing and wash before reuse.

68391-01-5

1 - 3

Eye contact					
	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately.				
Ingestion	Rinse mouth. Get medical attention if symptoms occur.				
Most Important symptoms or effe	cts, acute and delayed				
	Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain.				
Indication of immediate medical a	ttention and special treatment needed				
	If the product is ingested, probable mucosal damage may contraindicate the use of gastric lavage. Treat the affected person appropriately.				
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.				
	Section 5 - Fire-fighting measures				
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).				
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.				
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.				
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.				
Fire-fighting equipment /instructions	Move containers from fire area if you can do so without risk.				
General fire hazards	Use standard firefighting procedures and consider the hazards of other involved materials.				
Specific Methods	No unusual fire or explosion hazards noted.				
	Section 6 - Accidental release measures				
Personal precautions, protective	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment				
equipment and emergency procedures.	and clothing during clean-up. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For				
	personal protection, see section 8 of the SDS.				
Methods and materials for	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with				
containment and cleaning up	plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent product from				
	entering drains. Following product recovery, flush area with water. Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual				
	contamination.				
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.				
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in

Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9 - Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Thin Liquid.
Color	Yellow, clear.
Odor	Citrus.
Odor threshold	Not available.
pH	11.8
Melting point/freezing point	> 32 °F (> 0 °C)
Initial boinging point and boiling range	> 212 °F (> 100 °C)
Flash point	> 201 °F (> 93.9 °C) Pensky-Martens Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Upper/lower flammability or expl	osive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	1.04 ± 0.01 g/ml
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	Complete.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	<10 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Avoid temperatures exceeding the flash point. Reacts violently with strong acids. This product may react with oxidizing agents. Do not mix with other chemicals. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Anionic surfactants
Hazardous Decomposition Products	Upon decomposition, this product may yield oxides of nitrogen and ammonia, carbon dioxide, carbon monoxide and other low molecular weight hydrocarbons.

Section 11 - Toxicological information

Information on likely routes of	exposure
Ingestion	May be harmful if swallowed.
Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes skin irritation.
Eye contact	Causes serious eye damage.
Symptoms related to the physical, chemical and toxicological characteristics	Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain.
Information on toxicological eff	fects.

Section 13 - Disposal considerations

Disposal instructions	PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental
	Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
	CONTAINER DISPOSAL - Nonrefillable container. Do not reuse or refill container. Clean container promptly after emptying. (For containers 5 gallons or less):
	Triple rinse as follows: Fill container 1/4 full with water and recap. Agitate vigorously. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill. (For containers greater than 5 gallons):
	Triple rinse as follows: Fill container 1/4 full with water. Tip container on its side and roll it back and forth, ensuring at least one complete revolution for 30 seconds. Stand the container on its end and tip it back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty containers should be taken to an approved waste handling site for recycling or disposal. Since emptied containers may retain product residue, follow label warnings even after container is emptied.
