

# NATIONAL CHEMICAL LABORATORIES, INC.

### SAFETY DATA SHEET

	Section 1 - Ide	ntification							
Product Identifier	MIRAGE Floor Finish Maintaine	r & Cleaner							
Other means of identification	<b>n</b> 0925								
Recommended use	Detergent.								
Recommended restrictions	For commercial and industrial use only.								
Manufacturer / Importer / Se	upplier / Distributor Information								
Company Name	National Chemical Laboratories of PA, Inc.								
Address	401 N. 10th Street - Philadelphia, PA 19123								
Telephone	1 (215) 922-1200								
Supplier Email	info@nclonline.com								
Contact	CHEM-TEL								
Emergency Phone	1 (800) 255-3924								
	Section 2 - Hazard(s		·						
SDS Hazards	s and Warnings are based on the undiluted product. Re Classification	efer to diluted SDS for Ready-To-Use Hazards and Category	d Warnings.						
Physical Hazards	Not Classified	Category							
Health Hazards	Serious eye damage/eye irritation	2A							
OSHA defined hazards	Not Classified.								
Label Elements									
Hazard Symbol									
Signal Word	Warning								
-	warning								
Hazard Statement	Causas sarious ava irritation								
Hazard Statement	Causes serious eye irritation.

## SAFETY DATA SHEET

	Section 5 - Fire-fighting measures
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.
Methods and materials for containment and cleaning up	This product is miscible in water. SMALL SPILLS Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual
	contamination. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not get this material in contact with eyes. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
	Section 8 - Exposure control/personal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.
Individual protection measures, s	uch as personal protective equipment
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.
Skin protection	
Hand protection	Impervious gloves are recommended for prolonged use.
Other	If use of product risk exposure to contact, wear suitable protective clothing.
Respiratory protection	In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
	Section 9 - Physical and chemical properties
Appearance	Clear blue liquid.
Physical state	Liquid.
Form	Thin Liquid.
Color	Blue.
Odor	Pleasant.
Odor threshold	Not available.
рН	10.0
Melting point/freezing point	Not available.
Initial boinging point and	212 °F (100 °C)
boiling range	
Flash point	None to boiling.

### SAFETY DATA SHEET

Flammability (solid, gas)	Not available.						
Upper/lower flammability or explosive limits							
Flammability limit - lower (%)	Not available.						
Flammability limit - upper (%)	Not available.						
Explosive limit - lower (%)	Not available.						
Explosive limit - upper (%)	Not available.						
Vapor pressure	Similar to water.						
Vapor density	Similar to water.						
Relative density	$1.01 \pm 0.01$						
Relative density temperature	75 °F (23.9 °C)						
Solubilities (water)	100% Completely soluble.						
Partition Coefficient n-	Not available.						
octanol/water							
Auto-ignition temperature	Not Available.						
Decomposition temperature	Not Available.						
Viscosity	<10 cSt						
Viscosity Temperature	75 °F (23.9 °C)						

#### Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition	No hazardous decomposition products are known.
Products	

#### Section 11 - Toxicological information

Information on likely routes of e	xposure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Serious eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Information on toxicological effe	ects.
Acute toxicity	Not expected to be acutely toxic.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Causes serious eye irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not classified.

#### Section 12 - Ecological Information Ecotoxicity The product contains a substance which is toxic to aquatic organisms. Component(s) Nonylphenol, ethoxylated (CAS 9016-45-9) Aquatic Level Code Species Test Results Туре ∆rute Crustacea FC50 Nanhnia magna 65 mg/l 48 hours

#### - -CHEE

		SAFE	TY DATA SHEET	
Cru	istacea	EC50	Water flea (Daphnia magna)	12.2 mg/l, 48 hours
Fish	h	LC50	Bluegill (lepomis macrochirus)	1 - 1.8 mg/l 96 hours
Sodium dodecylbenze	nesulfonate (CAS 25155-3			<del>-</del>
Aquatic				
Acute Cru	istacea	EC50	Water flea (Ceriodaphnia dubia)	3.26-14.51 mg/l , 48 hrs.
Fish	h	LC50	Rainbow trout, donaldson trout	3.2-5.6 mg/l, 96 hrs.
Development and de evended	hilling Alexandria and		(Oncorhynchus mykiss)	
Persistence and degrada	-	-	ability of this product.
