SAFETY DATA SHEET

Section 1 - Identification

**Product Identifier**
PROLEX FPS-510 Concentrated Liquid Flatware Presoak

**Other means of identification**
1125

**Recommended use**
Alkaline cleaner.

**Recommended restrictions**
For commercial and industrial use only.

**Manufacturer / Importer / Supplier / Distributor Information**

- **Company Name**: National Chemical Laboratories of PA, Inc.
- **Address**: 401 N. 10th Street - Philadelphia, PA 19123
- **Telephone**: 1 (215) 922-1200
- **Supplier Email**: info@nclonline.com
- **Contact**: CHEM-TEL
- **Emergency Phone**: 1 (800) 255-3924

**OSHA defined hazards**
Not Classified.

**Label Elements**

- **Hazard Symbol**
- **Physical Hazards**
- **Health Hazards**
- **OSHA defined hazards**
- **Label Elements**

**Hazard(s) Identification**

- **Classification**
- **Category**

  **Physical Hazards**
  Not Classified

  **Health Hazards**
  Serious eye damage/eye irritation
  Skin corrosion/irritation

  **OSHA defined hazards**
  Not Classified.

**Signal Word**
Danger

**Hazard Statement**
Causes severe skin burns and eye damage.

**Precautionary statement**

- **Prevention**
  Do not breathe spray or mist. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye
  protection/face protection.

- **Response**
  If swallowed: Rinse mouth. Do NOT induce vomiting. If on skin (or hair): Take off immediately all contaminated clothing.
  Rinse skin with water/shower. If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse
  cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately
  call a poison center/doctor. Wash contaminated clothing before reuse.

- **Storage**
  Store locked up.

- **Disposal**
  Dispose of contents/container in accordance with local/regional/national/international regulations.

**Hazard(s) not otherwise classified (HNOC)**
None known.

**Section 3 - Composition/Information on ingredients**

**Mixture**

**Hazardous Components**

<table>

**Section 4 - First-aid Measures**

- **Inhalation**
  If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if
  symptoms develop or persist.

- **Skin contact**
  Take off immediately all contaminated clothing. Rinse skin with water/shower. Call a physician or poison control center
  immediately. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse.

- **Eye contact**
  Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do.
SAFETY DATA SHEET

Ingestion
Continue rinsing. Call a physician or poison control center immediately.

Most Important symptoms /effects, acute and delayed
Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

Indication of immediate medical attention and special treatment
Provide general supportive measures and treat symptomatically. Chemical burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed

General Information
Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

Section 5 - Fire-fighting measures

Suitable extinguishing media
Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

Unsuitable extinguishing media
Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical
During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters
Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment/instructions
Move containers from fire area if you can do it without risk.

General fire hazards
No unusual fire or explosion hazards noted.

Specific Methods
Use standard firefighting procedures and consider the hazards of other involved materials.

Section 6 - Accidental release measures

Personal precautions, protective equipment and emergency procedures.
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up
This product is miscible with water.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Environmental precautions
Avoid discharge into drains, water courses or onto the ground.

Section 7 - Handling and storage

Precautions for safe handling
Do not breathe spray or mist. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities
Store locked up. Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

Section 8 - Exposure control/personal protection

Occupational exposure limits

US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

</tr>
</tbody>
</table>

Biological limit values
No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls
Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities and emergency shower must be available when handling this product.

Individual protection measures, such as personal protective equipment

Eye/face protection
If use of product risks exposure to contact, wear safety glasses with side shields.

Skin protection

Hand protection
Impervious gloves are recommended for prolonged use.
**SAFETY DATA SHEET**

**General hygiene considerations**
Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

**Respiratory protection**
In case of insufficient ventilation, wear suitable respiratory equipment. No personal respiratory protective equipment normally required.

**Thermal hazards**
Wear appropriate thermal protective clothing, when necessary.

**Appearance**
- **Physical state**: Liquid.
- **Form**: Thin clear liquid.
- **Color**: Pink-Red.
- **Odor**: Odorless.
- **pH**: 13.6
- **Melting point/freezing point**: Not available.
- **Initial boiling point and boiling range**: 212 °F (100 °C)
- **Flash point**: None to boiling.
- **Evaporation rate**: Not available.
- **Flammability (solid, gas)**: Not available.
- **Upper/lower flammability or explosive limits**
  - Flammability limit - lower (%): Not available.
  - Flammability limit - upper (%): Not available.
  - Explosive limit - lower (%): Not available.
  - Explosive limit - upper (%): Not available.
- **Vapor pressure**: Similar to water.
- **Relative density**: 1.11 ± 0.01
- **Relative density temperature**: 75 °F (23.9 ºC)
- **Solubilities (water)**: Completely soluble.
- **n-octanol/water partition Coefficient**: Not available
- **Auto-ignition temperature**: Not Available
- **Decomposition temperature**: Not Available
- **Viscosity**: < 10 cSt
- **Viscosity Temperature**: 75 °F (23.9 ºC)

**Section 9 - Physical and chemical properties**

**Reactivity**
Reacts violently with strong acids. This product may react with oxidizing agents.

**Chemical stability**
Material is stable under normal conditions.

**Possibility of hazardous reactions**
No dangerous reaction known under conditions of normal use.

**Conditions to Avoid**
Do not mix with other chemicals. Contact with incompatible materials.

**Incompatible materials**
Strong acids. Oxidizing agents.

**Hazardous Decomposition Products**
No hazardous decomposition products are known.

**Section 10 - Stability and reactivity**

**Information on likely routes of exposure**

**Ingestion**
Causes digestive tract burns.

**Inhalation**
May cause irritation to the respiratory system. Prolonged inhalation may be harmful.

**Skin contact**
Causes severe skin burns.

**Eye contact**
Causes serious eye damage.

**Symptoms related to the physical, chemical and toxicological characteristics**
Burning pain and severe corrosive skin damage. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result.

**Information on toxicological effects**

**Acute toxicity**
Not expected to be acutely toxic.

Skin corrosion/irritation: Causes severe skin burns and eye damage.
Serious eye damage/eye irritation: Causes serious eye damage.
Respiratory sensitization: Not a respiratory sensitizer.
Skin sensitization: This product is not expected to cause skin sensitization.
Germ cell mutagenicity: No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity: This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity: This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure: Not classified.
Specific target organ toxicity - repeated exposure: Not classified.
Aspiration hazard: Not an aspiration hazard.
Chronic effects: Prolonged inhalation may be harmful.

Section 12 - Ecological Information

Ecotoxicity: Harmful to aquatic life.
Persistence and degradability: No data is available on the degradability of this product.
Bioaccumulative potential: No data available.
Mobility in soil: No data available.
Mobility in general: No data available.
Other adverse effects: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

Section 13 - Disposal considerations

Disposal instructions: Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations: Dispose of in accordance with local regulations.
Hazardous waste code: Waste codes should be assigned by the user based on the application for which the product was used.
Waste from residues / unused products: Dispose in accordance with all applicable regulations.
Contaminated packaging: Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

DOT
- UN number: UN1824
- Proper shipping name: SODIUM HYDROXIDE SOLUTION
- Transport hazard class(es): 8
- Packing group: II
- Special precautions for user: Read safety instructions, SDS and emergency procedures before handling.
- Special provisions: B2, IB2, N34, T7, TP2
- Packaging exemption: 154
- Packaging non bulk: 202
- Packaging bulk: 242

IATA
- UN number: UN1824
- UN proper shipping name: SODIUM HYDROXIDE SOLUTION
- Transport hazard class(es): 8
