

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identification			
Product Identifier	WHITE PEARL Luxurious Hand Cleaner & Body Wash			
Other means of identification	0470			
Recommended use	Hand Soap.			
Recommended restrictions	For commercial and industrial use only.			
Manufacturer / Importer / Suppl	lier / Distributor Information			
Company Name	National Chemical Laboratories of PA, Inc.			
Address	401 N. 10th Street - Philadelphia, PA 19123			
Telephone	1 (215) 922-1200			
Supplier Email	info@nclonline.com			
Contact	CHEM-TEL			
Emergency Phone	1 (800) 255-3924			

Section 2 - Hazard(s) Identification

	Classification	Category					
Physical Hazards	Not Classified						
Health Hazards	Not Classified						
OSHA defined hazards	Not Classified.						
Label Elements							
Hazard Symbol	None.						
Signal Word	None						
Hazard Statement	The mixture does not meet the criteria for classification.						
Precautionary statement							
Prevention	Observe good industrial hygiene practices.						
Response	Wash hands after handling.						
Storage	Store away from incompatible materials.						
Disposal	Dispose of waste and residues in accordance with local authority rec	juirements.					
Hazard(s) not otherwise classified (HNOC)	None known.						

Section 3 - Composition/Information on ingredients

Mixture

Composition Comments Componenets not listed are either non-hazardous or are below reportable limits.

Section 4 - First-aid Measures

Inhalation	Move to fresh air. Get medical attention if irritation persists.								
Skin contact	Wash off with soap and water. Get medical attention if irritation persists.								
Eye contact	Rinse with water. Get medical attention if irritation persists.								
Ingestion	Rinse mouth. Get medical attention if irritation persists.								
Most Important symptoms or ef	fects, acute and delayed								
	Direct contact with eyes may cause temporary irritation.								
Indication of immediate medical	l attention and special treatment needed								
	Treat symptomatically.								
General Information	Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.								
	Section 5 - Fire-fighting measures								
Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).								
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.								
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.								

SAFETY DATA SHEET

Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.						
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.						
General fire hazards	No unusual fire or explosion hazards noted.						
Specific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.						
	Section 6 - Accidental release measures						
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.						
Methods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.						
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.						
	Section 7 - Handling and storage						
Precautions for safe handling	Observe good industrial hygiene practices.						
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).						
	Section 8 - Exposure control/personal protection						
Occupational exposure limits	No exposure limits noted for ingredient(s).						
Biological limit values	No biological exposure limits noted for the ingredient(s).						
Appropriate engineering	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to						
controls	ood general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to onditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain irborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne evels to an acceptable level.Provide eyewash station.						
Individual protection measures, s	uch as personal protective equipment						
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.						
Skin protection							
Hand protection	Impervious gloves are recommended for prolonged use.						
-							
Other	If use of product risk exposure to contact, wear suitable protective clothing.						
•							
Other	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary.						
Other Respiratory protection	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment.						
Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,						
Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.						
Other Respiratory protection Thermal hazards General hygiene	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties						
Other Respiratory protection Thermal hazards General hygiene considerations	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid. Liquid. White.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid. Liquid. White. Almond.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid. Liquid. Uiquid. White. Almond. Not available.						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH Melting point/freezing point Initial boinging point and	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Section 9 - Physical and chemical properties Pearlescent Liquid. Liquid. Liquid. White. Almond. Not available. 7.0						
Other Respiratory protection Thermal hazards General hygiene considerations Appearance Physical state Form Color Odor Odor threshold pH Melting point/freezing point Initial boinging point and boiling range	If use of product risk exposure to contact, wear suitable protective clothing. In case of insufficient ventilation, wear suitable respiratory equipment. Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. SAFETY DATA SHEET

Relative density temperature Solubilities (water) Partition Coefficient n- octanol/water	75 °F (23.9 °C) Completely soluble. Not available.
Auto-ignition temperature	Not Available.
Decomposition temperature	Not Available.
Viscosity	2000 cSt
Viscosity Temperature	75 °F (23.9 °C)

Hazardous waste code

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	No hazardous decomposition products are known.

Section 11 - Toxicological information

	Section 11 - Toxicological monnation
Information on likely routes of e	exposure
Ingestion	Expected to be a low ingestion hazard.
Inhalation	No adverse effects due to inhalation are expected.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Direct contact with eyes may cause temporary irritation.
Symptoms related to the physical, chemical and toxicological characteristics	Direct contact with eyes may cause temporary irritation.
Information on toxicological effe	ects.
Acute toxicity	Not available.
Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Serious eye damage/ eye irritation	Direct contact with eyes may cause temporary irritation.
Respiratory sensitization	This product is not expected to cause respiratory sensitization.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not available.
	Section 12 - Ecological Information
Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Mobility in general	No data available.
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.
	Section 13 - Disposal considerations
Disposal instructions	Dispose in accordance with applicable federal, state, and local regulations.
Local disposal regulations	Dispose of in accordance with local regulations.
	-

Waste codes should be assigned by the user based on the application for which the product was used.

SAFETY DATA SHEET

Waste from residues / unused	Dispose in accordance with all applicable regulations.						
products							
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied.						

Section 14 - Transport information

DOTNot regulated as dangerous goods.IATANot regulated as dangerous goods.IMDGNot regulated as dangerous goods.Transportation in bulk
according to Annex II of
MARPOL 73/78 and IBC CodeThis substance/mixture is not intended to be transported in bulk.

Section 15 - Regulatory Information
