

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identifie	cation	
Product Identifier	DUAL-BLEND #17 INCREDILOSO™ - LA	/ENDER Multi-Purpose Cleaner / Deodoriz	zer
Other means of identification	on 5087		
Recommended use	Multi purpose cleaner.		
Recommended restrictions	For commercial and industrial use only	<i>.</i>	
Manufacturer / Importer / S	Supplier / Distributor Information		
Company Name	National Chemical Laboratories of PA, Inc.		
Address	401 N. 10th Street - Philadelphia, PA 19123		
Telephone	1 (215) 922-1200		
Supplier Email	info@nclonline.com		
Contact	CHEM-TEL		
Emergency Phone	1 (800) 255-3924		
	Section 2 - Hazard(s) Ide	entification	
SDS Hazard	is and Warnings are based on the undiluted product. Refer to a		d Warnings.
	Classification	Category	
Physical Hazards	Not Classified		
Health Hazards	Serious eye damage/eye irritation	2A	
OSHA defined hazards	Not Classified.		
Label Elements			
Hazard Symbol	\wedge		
Signal Word	Warning		
Signal Word	Warning Causes sociaus oue initiation		
Hazard Statement	Warning Causes serious eye irritation.		
Hazard Statement recautionary statement	Causes serious eye irritation.		
Hazard Statement recautionary statement Prevention	Causes serious eye irritation. Wash thoroughly after handling. Wear eye/face protection.		
Hazard Statement recautionary statement	Causes serious eye irritation. Wash thoroughly after handling. Wear eye/face protection. Wash hands after handling. If in eyes: Rinse cautiously with w		lenses, if present and
Hazard Statement recautionary statement Prevention Response	Causes serious eye irritation. Wash thoroughly after handling. Wear eye/face protection. Wash hands after handling. SAFETY DATA SHEET

	Section 5 - Fire-fighting measures
uitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Jnsuitable extinguishing nedia	Do not use water jet as an extinguisher, as this will spread the fire.
pecific hazards arising from he chemical	During fire, gases hazardous to health may be formed.
pecial protective equipment nd precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire-fighting equipment /instructions	Move containers from fire area if you can do it without risk.
General fire hazards	No unusual fire or explosion hazards noted.
pecific Methods	Use standard firefighting procedures and consider the hazards of other involved materials.
	Section 6 - Accidental release measures
Personal precautions, protective equipment and emergency procedures.	Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.
Nethods and materials for containment and cleaning up	SMALL SPILLAGE: Absorb spillage with suitable absorbent material. Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water. LARGE SPILLS: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. After removal flush contaminated area thoroughly with water.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
	Section 7 - Handling and storage
Precautions for safe handling	Do not breathe mist or vapor. Do not get in eyes, on skin, or on clothing. Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).
	Section 8 - Exposure control/personal protection
Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
exposure guidelines	Use personal protective equipment as required. Keep working clothes separately.
Appropriate engineering controls	Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station. Provide adequate ventilation and minimize the risk of inhalation of vapors and mists.
ndividual protection measures, su	uch as personal protective equipment
Eye/face protection	If use of product risks exposure to contact, wear safety glasses with side shields.
Skin protection	
Hand protection	Impervious gloves are recommended for prolonged use.
Other Beggington, protection	If use of product risk exposure to contact, wear suitable protective clothing.
Respiratory protection Thermal hazards	In case of inadequate ventilation, use respiratory protection. Wear appropriate thermal protective clothing, when necessary.
General hygiene	Wear appropriate thermal protective clothing, when necessary. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking,
considerations	and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.
	Section 9 - Physical and chemical properties
Appearance	Clear.
Physical state	Liquid.
Form	Thin Liquid.
Color	Violet.
Ddor	Lavender.
Odor threshold	Not available.
Н	7.4
Melting point/freezing point	Not available.
nitial boinging point and boiling range	212 °F (100 °C)
Flash point	None to boiling.
Evaporation rate	Not available.

SAFETY DATA SHEET

Flammability (solid, gas) Upper/lower flammability or explo	Not available.
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Similar to water.
Vapor density	Similar to water.
Relative density	1.00 ± 0.01
Relative density temperature	75 °F (23.9 °C)
Solubilities (water)	100 % Soluble.
Partition Coefficient n- octanol/water	Not available
Auto-ignition temperature	Not Available
Decomposition temperature	Not Available
Viscosity	< 10 cSt
Viscosity Temperature	75 °F (23.9 °C)

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Stable at normal conditions.
Possiblity of hazardous reactions	Hazardous polymerization does not occur.
Conditions to Avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous Decomposition Products	Carbon oxides. Nitrogen oxides.

Section 11 - Toxicological information

Information on likely routes of ex	xposure			
Ingestion	No adverse effects due to ingestion are expected.			
Inhalation	Under normal conditions of intended use, this material is not expected to be an inhalation hazard.			
Skin contact	Prolonged or repeated skin contact may cause drying, cracking, or irritation.			
Eye contact	Causes serious eye irritation.			
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.			
Information on toxicological effe	icts.			
Acute toxicity	Not expected to be acutely toxic.			
Skin corrosion/irritation	Prolonged or repeated contact may dry skin and cause irritation.			
Serious eye damage/ eye irritation	Causes serious eye irritation.			
Respiratory sensitization	This product is not expected to cause respiratory sensitization.			
Skin sensitization	This product is not expected to cause skin sensitization.			
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.			
Carcinogenicity	This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA.			
Reproductive toxicity	This product is not expected to cause reproductive or developmental effects.			
Specific target organ toxicity - single exposure	Not classified.			
Specific target organ toxicity - repeated exposure	Not classified.			
Aspiration hazard	Not classified.			

Section 12 - Ecological Information				
Ecotoxicity	The prod	uct contains a substance v	which is very toxic to aquatic organisms.	
Component(s	5)			
Alcohol etho	ylate (CAS 68131-39-5)			
Aquatic				
Level	Туре	Code	Species	Test Results
Δουτο	Crustacea	FC50	Water flea (Ceriodanhnia duhia)	0 27 - 0 12 mg/l 18 hours
