SAFETY DATA SHEET

Section 1 - Identification

Product Identifier MAIN SQUEEZE LAVENDER 256 Neutral Disinfectant Cleaner Deodorizer RTU (1-256)
Other means of identification 4173 (1-256)
Recommended use Disinfectant Cleaner.
Recommended restrictions EPA Registered Product. For Commercial and Industrial Use Only. (RTU) Ready-To-Use solution.

Manufacturer / Importer / Supplier / Distributor Information
Company Name National Chemical Laboratories of PA, Inc.
Address 401 N. 10th Street - Philadelphia, PA 19123
Telephone 1 (215) 922-1200
Supplier Email info@nclonline.com
Contact CHEM-TEL
Emergency Phone 1 (800) 255-3924

Section 2 - Hazard(s) Identification

Physical Hazards Classification Not Classified
Health Hazards Health Hazards Not Classified
Serious eye damage/eye irritation 2B
OSHA defined hazards Not Classified

Label Elements
Hazard Symbol None.
Signal Word Warning
Hazard Statement Causes eye irritation.
Precautionary statement Prevention Wear eye/face protection. Wash thoroughly after handling.
Response If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
Storage Keep container tightly closed. Store away from incompatible materials.
Disposal Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC) None known.

Section 3 - Composition/Information on ingredients

Mixture Components
Hazardous Components Quaternary Ammonium Chloride compounds
Ingredient Name Quaternary Ammonium Chloride compounds
CAS # mixture
% < 0.1
Composition Comments Components not listed are either non-hazardous or are below reportable limits.

Section 4 - First-aid Measures

Inhalation Move to fresh air. Get medical attention if irritation develops and persists.
Skin contact Wash skin with water. Get medical attention if irritation develops or persists.
Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.
Ingestion Rinse mouth. Get medical attention if irritation develops and persists.
Most Important symptoms /effects, acute and delayed Causes eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.
Indication of immediate medical attention and special treatment Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General Information Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

Section 5 - Fire-fighting measures

Suitable extinguishing media RTU product will not support combustion. Water fog. Foam. Carbon dioxide (CO2).
SAFETY DATA SHEET

Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical During fire, gases hazardous to health may be formed.

Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire-fighting equipment /instructions Move containers from fire area if you can do so without risk.

General fire hazards This product is not flammable or combustible.

Specific Methods Use standard fire fighting procedures and consider the hazards of other involved materials.

Section 6 - Accidental release measures

Personal precautions, protective equipment and emergency procedures Isolate area. Keep unnecessary personnel away. Use personal protection as recommended in Section 8 of the SDS.

Methods and materials for containment and cleaning up This product is miscible in water.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Prevent entry into waterways, sewer, basements or confined areas. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

Section 7 - Handling and storage

Precautions for safe handling Avoid breathing mist or vapor. Avoid contact with eyes. Avoid prolonged exposure to skin. Provide adequate ventilation.

Conditions for safe storage, including any incompatibilities Store in original tightly closed container. Store away from incompatible materials (see Section 10 of the SDS).

Section 8 - Exposure control/personal protection

Occupational exposure limits No exposure limits noted for ingredient(s).

Biological limit values No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Individual protection measures, such as personal protective equipment

Eye/face protection If use of product risks exposure to contact, wear safety glasses with side shields.

Skin protection

Hand protection Impervious gloves are recommended for prolonged use.

Other If use of product risk exposure to contact, wear suitable protective clothing.

Respiratory protection In case of insufficient ventilation, wear suitable respiratory equipment.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

Section 9 - Physical and chemical properties

Appearance

Physical state Liquid.

Form Clear, thin liquid.

Color Pale violet.

Odor Lavender.

Odor threshold Not available.

pH 7.1 ± 1.0

Melting point/freezing point Not relevant.

Initial boiling point and boiling range 212 °F (100 °C)

Flash point None to boiling.

Evaporation rate Not available.

Flammability (solid, gas) Not available.
### Upper/lower flammability or explosive limits

</table>

### Relative density

- **Relative density**: 1.00 ± 0.01

### Vapor pressure

- **Vapor pressure**: Similar to water.

### Chemical stability

- **Chemical stability**: Material is stable under normal conditions.

### Reactivity

- **Reactivity**: The product is stable and non-reactive under normal conditions of use, storage and transport.

### Compatibility

- **Incompatible materials**: Strong oxidizing agents. Anionic surfactants.

### Incompatible materials

- **Decomposition temperature**: Not Available

### Hazardous Decomposition

- **Hazardous Decomposition Products**: No hazardous decomposition products are known.

### Inhalation

- **Inhalation**: Prolonged inhalation may be harmful.

### Ingestion

- **Ingestion**: Expected to be a low ingestion hazard.

### Skin contact

- **Skin contact**: Prolonged skin contact may cause temporary irritation.

### Eye contact

- **Eye contact**: Causes eye irritation.

### Acute toxicity

- **Acute toxicity**: Not expected to be hazardous.

### Skin corrosion/irritation

- **Skin corrosion/irritation**: Prolonged skin contact may cause temporary irritation.

### Respiratory sensitization

- **Respiratory sensitization**: This product is not expected to cause respiratory sensitization.

### Skin sensitization

- **Skin sensitization**: This product is not expected to cause skin sensitization.

### Reproductive toxicity

- **Reproductive toxicity**: This product is not expected to cause reproductive or developmental effects.

### Ecotoxicity

- **Ecotoxicity**: The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.

### Persistence and degradability

- **Persistence and degradability**: No data is available on the degradability of this product.

### Bioaccumulative potential

- **Bioaccumulative potential**: No data available.

### Mobility in soil

- **Mobility in soil**: No data available.

### Mobility in general

- **Mobility in general**: The product is water soluble and may spread in water systems.

### Other adverse effects

- **Other adverse effects**: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine)

### Auto-ignition temperature

- **Auto-ignition temperature**: Not Available

### Decomposition temperature

- **Decomposition temperature**: Not Available

### Viscosity

- **Viscosity**: <10 cSt

### Partial Coefficient

- **n-octanol/water**: Not available

### Auto-ignition temperature

- **Auto-ignition temperature**: Not Available

### Decomposition temperature

- **Decomposition temperature**: Not Available

### Viscosity Temperature

- **Viscosity Temperature**: 75 °F (23.9 °C)

### Relative density temperature

- **Relative density temperature**: 75 °F (23.9 °C)

### Solubilities (water)

- **Solubilities (water)**: Completely soluble.

### Toxicity

- **Toxicity**: The product is stable and non-reactive under normal conditions of use, storage and transport.

### Chemical stability

- **Chemical stability**: Material is stable under normal conditions.

### Reactivity

- **Reactivity**: The product is stable and non-reactive under normal conditions of use, storage and transport.

### Compatibility

- **Incompatible materials**: Strong oxidizing agents. Anionic surfactants.

### Incompatible materials

- **Decomposition temperature**: Not Available

### Hazardous Decomposition

- **Hazardous Decomposition Products**: No hazardous decomposition products are known.

### Inhalation

- **Inhalation**: Prolonged inhalation may be harmful.

### Ingestion

- **Ingestion**: Expected to be a low ingestion hazard.

### Skin contact

- **Skin contact**: Prolonged skin contact may cause temporary irritation.

### Eye contact

- **Eye contact**: Causes eye irritation.

### Acute toxicity

- **Acute toxicity**: Not expected to be hazardous.

### Skin corrosion/irritation

- **Skin corrosion/irritation**: Prolonged skin contact may cause temporary irritation.

### Respiratory sensitization

- **Respiratory sensitization**: This product is not expected to cause respiratory sensitization.

### Skin sensitization

- **Skin sensitization**: This product is not expected to cause skin sensitization.

### Reproductive toxicity

- **Reproductive toxicity**: This product is not expected to cause reproductive or developmental effects.

### Ecotoxicity

- **Ecotoxicity**: The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment.

### Persistence and degradability

- **Persistence and degradability**: No data is available on the degradability of this product.

### Bioaccumulative potential

- **Bioaccumulative potential**: No data available.

### Mobility in soil

- **Mobility in soil**: No data available.

### Mobility in general

- **Mobility in general**: The product is water soluble and may spread in water systems.

### Other adverse effects

- **Other adverse effects**: No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine)
Section 13 - Disposal considerations

Disposal instructions
PESTICIDE DISPOSAL - Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL - Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse container promptly after emptying.
(For containers 5 gallons or less):
Triple rinse as follows: Fill container 1/4 full with water and recap. Agitate vigorously. Drain for 10 seconds after the flow begins to drip. Follow Pesticide Disposal instructions for rinsate disposal. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, puncture and dispose in a sanitary landfill.

Hazardous waste code
The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products
Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging
Since emptied containers may retain product residue, follow label warnings even after container is emptied.

Section 14 - Transport information

General Information
This product is customer diluted for on site use only. No transportation information is anticipated or provided. The regulatory transport classification of the product without consideration to dilution strength, packaging, quantity, or modal restrictions and exceptions can not be anticipated. It is the user’s responsibility to determine the appropriate packaging and modal requirements and/or limitations for the product quantity being shipped.

Section 15 - Regulatory Information

US federal regulations
This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the U.S. EPA TSCA Inventory List.

TSCA Section 12(b) Export Notification (40 CFR707, Subpt. D)
Not regulated.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)
Not listed.

CERCLA Hazardous Substance List (40 CFR 302.4)
Not listed.

Superfund Amendments and Reauthorization Act of 1986 (SARA)

Hazard Categories
Immediate Hazard Yes
Delayed Hazard No
Fire Hazard No
Pressure Hazard No
Reactivity Hazard No

SARA 302 Extremely hazardous substance
Not listed.

SARA 311/312 Hazardous chemical
Yes

SARA 313 (TRI reporting)
Not regulated.

Other federal regulations
Clean Air Act (CAA) Section 112 Hazardous Air Pollutants (HSPs) List
Not regulated.

Clean Air Act (CAA) Section 112(r) Accidental Release Prevention (40 CFR 68.130)
Not regulated.

Safe Drinking Water Act (SDWA)
Not regulated.

Food and Drug Administration (FDA)
Not regulated.

US state regulations
US.Massachusetts RTK - Substance List
Not regulated.

US.New Jersey Worker and Community Right-to-Know Act
Not listed.

US.Pennsylvania RTK - Hazardous Substances
Not listed.

US.Rhode Island RTK
Not regulated.

US - California Proposition 65
California Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65): This material is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.
