

NATIONAL CHEMICAL LABORATORIES, INC.

SAFETY DATA SHEET

	Section 1 - Identification
Product Identifier	Afia™ Alcohol Based Foaming Hand Sanitizer
Other means of identification	0440
Recommended use	Hand Sanitizer.
Recommended restrictions	For commercial and industrial use only.
Manufacturer / Importer / Supp	lier / Distributor Information
Company Name	National Chemical Laboratories of PA, Inc.
Address	401 N. 10th Street - Philadelphia, PA 19123
Telephone	1 (215) 922-1200
Supplier Email	info@nclonline.com
Contact	CHEM-TEL
Emergency Phone	1 (800) 255-3924

Section 2 - Hazard(s) Identification

	Classification	Category	
Physical Hazards	Flammable Liquids	3	
Health Hazards	Serious eye damage/eye irritation	2B	
OSHA defined hazards	Not Classified.		
Label Elements			
Hazard Symbol			
Signal Word	Warning		
Hazard Statement	Highly flammable liquid and vapor. Causes serious	eye irritation.	
Precautionary statement			
Prevention		faces No smoking. Keep container tightly closed. Take proof electrical/ventilating/lighting/equipment. Avoid bro	
Response	Call a poison center/doctor if you feel unwell. Rep	ninutes. Remove contact lenses, if present and easy to d eated use may cause skin irritation. If skin irritation pers dical advice/attention. In case of fire: Use dry sand, dry c	ist: Get medical
Storage	Store in a well-ventilated place. Keep container tig	htly closed. Keep cool. Store locked up.	
Disposal	Dispose of contents/container in accordance with	local/regional/national/international regulations.	
Hazard(s) not otherwise classified (HNOC)	None known.		
	Section 3 - Composition/I	nformation on ingredients	

Mixture			
Hazardous Components	Ingredient Name	CAS #	%
	Ethyl Alcohol	64-17-5	70 - 75
Composition Comments	Components not listed are either non-hazardous or are b	pelow reportable limits.	
	Section 4 - First-	aid Measures	
Inhalation	Remove victim to fresh air and keep at rest in a p if you feel unwell.	osition comfortable for breathing. Call a POIS	ON CENTER or doctor/physician
Skin contact	If irritation persists, wash with water.		
Eye contact	Immediately flush eyes with plenty of water for a Continue rinsing. Get medical attention if irritatio		present and easy to do.
Ingestion	If concious rinse mouth. Do not induce vomiting 1222).	without medical advise. Contact poison contro	ol immediately (USA 800-222-

Most Important symptoms or effects, acute and delayed

May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Delayed skin symptom, may cause redness and irritation.

Indication of immediate medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Thermal burns: Flush with water immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.

General Information

Fire-fighting equipment

/instructions

Specific Methods

Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.

Section 5 - Fire-fighting measures Suitable extinguishing media Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2). Unsuitable extinguishing media Do not use water jet as an extinguisher, as this will spread the fire. Specific hazards arising from the chemical Vapors may form explosive mixtures with air. Vapors may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed. Special protective equipment and precautions for firefighters Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

In case of fire and/or explosion do not breathe fumes. Move containers from fire area if you can do so without risk.

General fire hazards Highly flammable liquid and vapor.

Use standard firefighting procedures and consider the hazards of other involved materials.

Section 6 - Accidental release measures

Personal precautions, protective
equipment and emergency
procedures.Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no
smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up.
Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective
clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be
contained. For personal protection, see section 8 of the SDS.Methods and materials forEliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Take precautionary measures against

containment and cleaning up static discharge. Use only non-sparking tools. Keep combustibles (wood, paper, oil, etc.) away from spilled material. This product is miscible in water. Large Spills: Stop the flow of material, if this is without risk. Use water spray to reduce vapors or divert vapor cloud drift.

Large Spills: Stop the flow of material, if this is without risk. Use water spray to reduce vapors or divert vapor cloud drift. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

Environmental precautions Avoid discharge into drains, water courses or onto the ground.

Section 7 - Handling and storage

Precautions for safe handling	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. Avoid prolonged exposure. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store between 32-86°F (0-30°C). Store in original tightly closed container. Store in a well-ventilated place. Use explosion-proof electrical/ventilating/ lighting/equipment. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

Section 8 - Exposure control/personal protection

Occupational exposure limits			
US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR	1910.1000)		
Components	Туре	Value	Form
Ethyl Alcohol (CAS 64-17-5)	TWA	1900 mg/m³, 1000 ppm	
US. ACGIH Threshold Limit Values			
Component	Туре	Value	Form
Ethyl Alcohol (CAS 64-17-5)	STEL	1000 ppm	
US. NIOSH: Pocket Guide to Chemical Hazards			
Components	Туре	Value	
Ethyl Alcohol (CAS 64-17-5)	IDLH	3300 ppm	
Ethyl Alcohol (CAS 64-17-5)	TWA	1900 mg/m³, 1000 ppm	

Appropriate engineering controls	Good general ventilation should be sufficient to control worker exposure to airborne contaminants. Adequate ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Eye wash facilities must be available when handling this product.
Individual protection measures,	such as personal protective equipment
Eye/face protection	No special protective equipment required, under normal conditions of use.
Skin protection	
Hand protection	No special protective equipment required, under normal conditions of use.
Respiratory protection	No special protective equipment required, under normal conditions of use.
Thermal hazards	When using do not smoke. Do not station or use near any source of ignition.
General hygiene considerations	Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

Section 9 - Physical and chemical properties

Appearance

	Section 10 - Stability and reactivity
Viscosity	N/A
Decomposition temperature	No data available
Auto-ignition temperature	N/A
octanol/water	
Partition Coefficient n-	No data available
Solubilities (water)	No data available
Relative density temperature	Not available.
Relative density	Not available.
Vapor density	N/A
Vapor pressure	N/A
Explosive limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Flammability limit - upper (%)	Not established
Flammability limit - lower (%)	Not established
Upper/lower flammability or expl	osive limits
Flammability (solid, gas)	No data available.
Evaporation rate	<1
Flash point	77°F (25°C)
boiling range	
Initial boinging point and	Not available.
Melting point/freezing point	Not available.
pH	6.7 ± 0.5
Odor threshold	Not available.
Odor	Alcohol.
Color	Colorless.
Form	Clear, thin liquid.
Physical state	Liquid.
Appearance	

Section 10 - Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possiblity of hazardous reactions	No dangerous reaction known under conditions of normal use.
Conditions to Avoid	Avoid heat, sparks, open flames and other ignition sources.
Incompatible materials	None known
Hazardous Decomposition Products	Carbon Oxides

Section 11 - Toxicological information

Information on likely rou	tes of exposure
Ingestion	Health injuries are not known or expected under normal use.
Inhalation	Health injuries are not known or expected under normal use.
Skin contact	Health injuries are not known or expected under normal use.
Eye contact	Causes serious eye irritation.

Symptoms related to physical, chemical an toxicological characte	d	-	-			-	Severe eye irritation. Symptoms act, may cause redness and
